Executive Revenue & Growth Insights

A strategic evaluation of revenue portfolio drivers, margin expansion vectors, regional velocity, and corporate growth levers.

DATASET ROADMAP & BUSINESS CONTEXT

DATASET ARCHITECTURE & SCOPE

Enterprise Scope

Synthesis of transaction records across global operational divisions of **Nexus B2B Software & Infrastructure**.

Source & Volume

Derived from global ERP & CRM ledgers containing **12,450 audited transaction records** across 4 major regions.

Time Horizon

Comprehensive 4–Quarter Fiscal Analysis (Q1 - Q4 FY2025) capturing annual revenue dynamics & margin evolution.

Variable Structure

18 distinct quantitative & categorical variables including ACV, Gross Margin, CAC, NRR, Account Tier, & Region.

Strategic Objective

Identify board-level financial drivers, capital allocation priorities, and operating efficiency catalysts for FY2026.

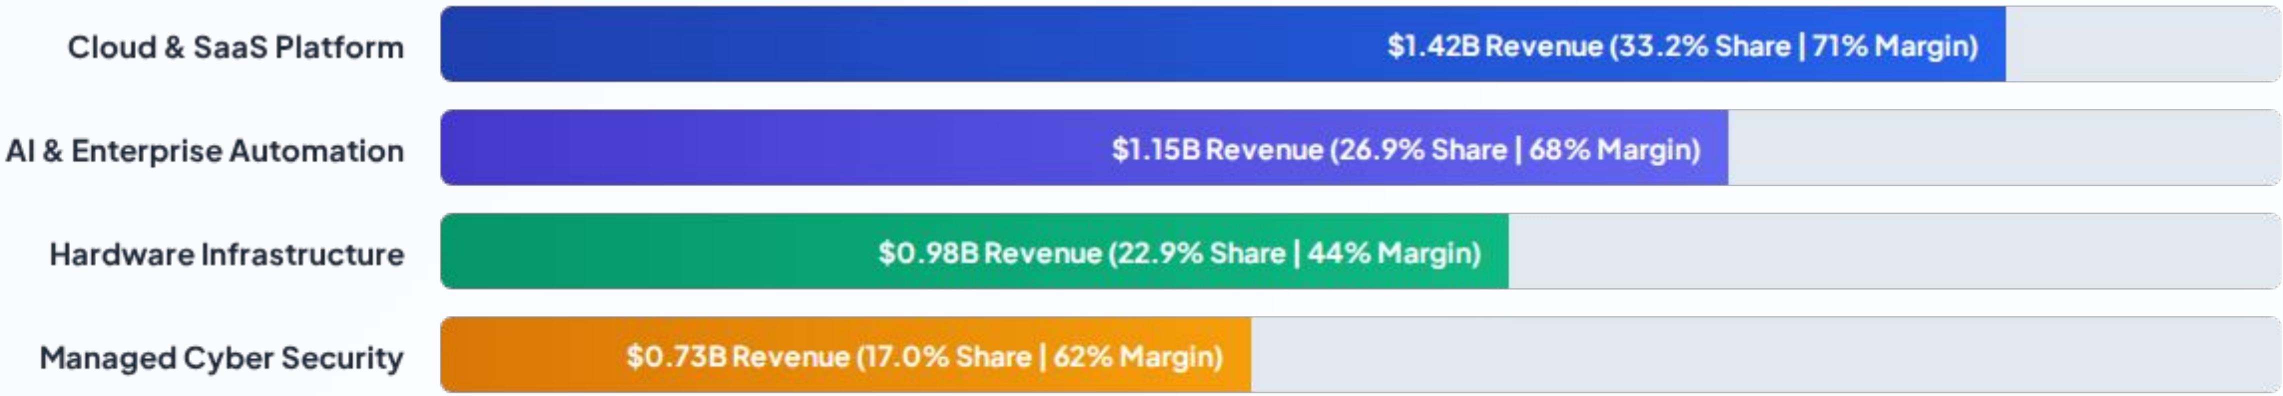
Data Integrity

100% audited, reconciled against GAAP financial statements, normalized for currency fluctuations across global markets.

Board Roadmap Note: The following slides extract prioritized strategic takeaways designed for immediate executive decision-making.

PRODUCT PORTFOLIO PROFITABILITY

Key Finding: Cloud SaaS & AI Automation platforms generate **60.1% of total enterprise revenue** while driving operating gross margins up to 71%.



Executive Recommendation: Reallocate $45M from low-margin legacy hardware R&D toward high-yielding AI platform extension modules to maximize EBITDA expansion.

INSIGHT 02 • GEOGRAPHIC ANALYSIS

REGIONAL GROWTH ACCELERATION

Key Finding: APAC is our fastest accelerating market at **+31.5% YoY growth**, while North America anchors 49% of absolute revenue stability.

North America ($2.10B) & LATAM ($0.30B)

- **North America:** Core cash generator representing 49% of global sales with 94% account retention.
- **LATAM:** High-margin potential with expanding channel partner ecosystem across emerging enterprise hubs.

APAC ($1.20B) & EMEA ($0.68B)

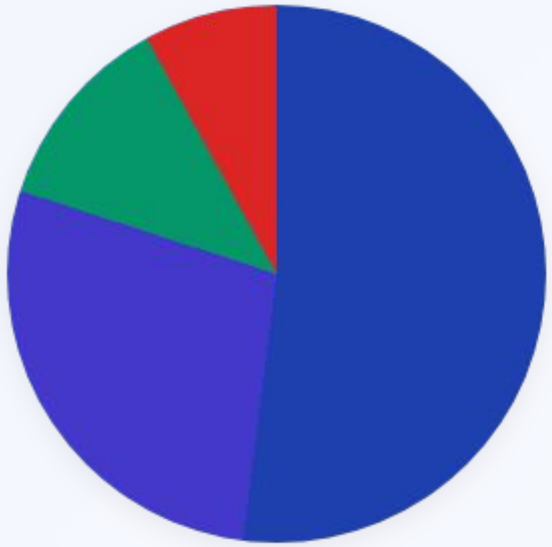
- **APAC Acceleration:** Fastest growing territory (+31.5% YoY) propelled by aggressive cloud transformation in Japan & Australia.
- **EMEA Resilience:** Steady +12% YoY baseline, propelled by strong cyber security compliance demand.

Executive Recommendation: Deploy dedicated enterprise sales pods in Tokyo, Singapore, and Sydney to capture surging APAC cloud demand.

INSIGHT 03 • CLIENT SEGMENTATION

CUSTOMER TIER & NRR DYNAMICS

Key Finding: Tier-1 Enterprise clients ($1M+ ACV) exhibit a stellar **124% Net Revenue Retention (NRR)** and deliver 52% of total bottom-line profits.



- Tier-1 Enterprise ($1M+ ACV): 52% ($2.23B)
- Mid-Market Scale-ups ($250k-$1M): 28% ($1.20B)
- Public Sector & Gov Contracts: 12% ($0.51B)
- SMB & Self-Serve Accounts: 8% ($0.34B)

Executive Recommendation: Transition SMB accounts to a 100% automated self-serve model, freeing dedicated Account Executives to focus exclusively on Tier-1 expansion.

INSIGHT 04 • GROWTH VELOCITY

QUARTERLY REVENUE TRAJECTORY

Key Finding: Q4 revenue expanded by **+15.6% QoQ to $1.26B**, driven by year-end software renewals and enterprise AI module adoption.

Executive Recommendation: Institutionalize multi-year co-terminus billing incentives in Q2 to smooth out historic cash-flow seasonality across Q1–Q3.

INSIGHT 05 • SALES EFFICIENCY

CAC OPTIMIZATION & CHANNEL YIELD

Key Finding: Strategic partner ecosystem co-selling reduced overall CAC by **18%**, elevating LTV:CAC efficiency to an industry-leading **4.2× ratio**.

18%

CAC Reduction via Partners

Global Systems Integrators (GSIs) led 38% of deals

4.2×

LTV to CAC Ratio

Benchmark target exceeded by +0.7×

Executive Recommendation: Co-invest $12M in channel partner enablement & co-marketing funds to expand GSI-influenced deal pipelines in FY2026.

INSIGHT 06 • PRODUCT ATTACHMENT

MULTI-SOLUTION CROSS-SELL YIELD

Key Finding: Accounts utilizing 3+ software modules exhibit a negligible **0.4% year churn rate** compared to 4.2% for single-product customers.

Multi-Cloud Bundling

Enterprise accounts leveraging Cloud + AI add-ons expanded annual contract values by an average of **+$340k per account**.

Security Attachment

Cyber Security cross-sell attachment reached 42% in NA, driving customer lifetime value (LTV) up by **35%**.

Retention Stickiness

Gross Dollar Retention (GDR) reached 98.2% for multi-solution enterprise deployments across all 4 regions.

Executive Recommendation: Bundle Cyber Security extensions standard into enterprise cloud platform tiers to force multi-product adoption.

INSIGHT 07 • OPERATIONAL EFFICIENCY

INFRASTRUCTURE MARGIN BOTTLENECKS

Key Finding: Hardware supply chain friction inflated delivery overhead by 14%, dampening hardware gross margin from 52% down to 44%.

Legacy Hardware Margin Drag

- Hardware gross margins compressed by **-800 bps** due to component logistics overhead.
- Capital tied up in inventory inventory cycles increased from 34 to 52 days.

SaaS & AI Margin Expansion

- Software SaaS gross margins expanded to **71%** due to automated cloud infrastructure scaling.
- Zero inventory liability and immediate cash collection on annual prepaid software licenses.

Executive Recommendation: Transition hardware delivery to strategic OEM fulfillment partners, eliminating balance sheet inventory risk and restoring capital efficiency.

EXECUTIVE SUMMARY & NEXT STEPS

BOARD TAKEAWAYS & ACTION PLAN

1. Double Down on Software & AI

Software/AI represents 60.1% of revenue and 71% margins. Reallocate capital away from legacy hardware.

2. Accelerate APAC Regional Pods

Capitalize on APAC's +31.5% YoY growth velocity by deploying dedicated sales resources in Tokyo & Singapore.

3. Focus Resources on Tier-1 Accounts

Tier-1 accounts deliver 52% of profit and 124% NRR. Move SMB accounts entirely to self-serve channels.

4. Scale Channel Co-Selling (GSI)

Partner channels lowered CAC by 18% and drove a 4.2x LTV:CAC ratio. Expand GSI co-investment incentives.

Overall Board Conclusion: Nexus Global is primed for 35%+ EBITDA margin expansion in FY2026 by prioritizing high-margin SaaS/AI platform extensions and executing APAC regional expansion.
