

The AI opportunity is not “AI”.

It is revenue infrastructure.

1,000 verified startups show that AI tied to sales, marketing and analytics monetizes faster and is priced cheaper.

FOR SALE

A data-backed recommendation for investors and founders

A crowded market with a thin winner layer

The dataset rewards medians and concentration analysis, not averages.

→ AI supply is global; monetization is still US-led and highly concentrated.

The sharpest wedge: AI that touches the revenue line

Median MRR by AI market tag · bubble size = total MRR · log scale

→ The best risk-adjusted wedge is not generic AI—it is AI embedded in revenue workflows.

Revenue AI wins on economics not just hype

Revenue AI = AI-tagged startups with Sales, Marketing or Analytics tags.

Generic AI

→ A memorable listing is not necessarily an investable business normalize revenue, growth and multiple first.

Investment playbook: back measurable ROI

Where investors should focus and what founders should build next.

01

FOCUS

Own the revenue workflow

Prioritize Sales AI; expand into Marketing + Marketing + Analytics.

20× generic-AI median MRR

02

GO-TO-MARKET

Build anywhere. Sell Sell to the US.

The US is 29% of AI startups but 59% of AI AI MRR.

2.0× monetization concentration

03

VALUE

Pay for proof not labels

Underwrite verified MRR, positive growth growth and customer ROI.

2.45× Revenue-AI listed multiple

04

AVOID

Do not fund another another generic wrapper

Generic AI, Productivity and Design Tools are Tools are crowded or weakly monetized. monetized.

\$42–\$446 median MRR

 FOUNDER OPPORTUNITY

A CRM-native AI agent that owns one measurable outcome: prospecting, qualification, follow-up or conversion.

Build where AI moves revenue not where it merely creates output.

- | | | |
|----|---------------------------|---|
| 01 | AI is crowded | 197 generic-AI companies make it the largest classified category. |
| 02 | Revenue AI is stronger | 6.7× higher median MRR than the rest of AI. |
| 03 | Sales AI is the wedge | \$9.0K median MRR, +19.7% growth, only 20 startups. |
| 04 | US demand still matters | 29% of AI startups generate 59% of AI MRR. |
| 05 | Valuations are misaligned | Revenue AI lists at a 34% lower median multiple. |

DATA DOES NOT PREDICT THE FUTURE.
IT REVEALS WHERE TO LOOK NEXT.

THE THESIS

The next winner will not be
be the smartest model.

It will be the product closest to a budget
owner and a measurable dollar outcome.
outcome.

- ✓ Own the workflow
- ✓ Sell into US demand
- ✓ Prove MRR + growth
- ✓ Ignore the AI label premium
