

TrustMRR.com

The database of verified startup revenue

TrustMRR is a marketplace and public leaderboard where SaaS, mobile-app and digital-business revenue is verified directly through payment providers — Stripe, RevenueCat, Superwall, Paddle and Creem — rather than self-reported. Founders list their startups to build trust with buyers; acquirers browse live MRR, growth and multiples before they ever make an offer.

200K

monthly visitors browsing the marketplace

5

verified payment rails: Stripe, RevenueCat, Superwall, Paddle, Creem

30+

startup categories, from AI to Real Estate

24/7

hourly data refresh — revenue, MRR and growth stay current

● THE SAMPLE

1,000 listed startups, one live snapshot

Pulled from the TrustMRR leaderboard — verified revenue, MRR, growth, category and market data across every listed company.

1,000

startups in the dataset

\$13.5M

combined monthly MRR

803

currently generating revenue

30

categories represented

Where the listings sit

Audience type

B2B startups pull in 2.6x the average MRR of B2C listings (\$13.1K vs \$5.1K).

Revenue is brutally concentrated

A small slice of listed startups accounts for almost all of the marketplace's monthly revenue.

Cumulative share of the \$13.5M total monthly MRR

48%

of all MRR sits with just the top 10 startups

59%

of listed startups earn under \$1,000 MRR

1 in 5

startups clear \$10,000+ MRR

The takeaway: median performance tells you little. Study the outliers — they define what “working” looks like on this marketplace.

Meet the top of the leaderboard

The ten highest-MRR, named startups in the dataset — these set the benchmark for the rest of the analysis.

#	Startup	Category	Country	MRR	30-day
1	Stan	Creator Tools	US	\$3,569,654	+0.4%
2	GojiberryAI	AI	US	\$494,668	+23.6%
3	Rezi	AI	US	\$259,701	−4.9%
4	Kibu	Education	US	\$234,319	+52.8%
5	Cometly	Analytics	US	\$207,616	+3.0%
6	1Lookup	SaaS	US	\$207,064	−7.5%
7	Brand On Demand	E-comm	US	\$187,459	−1.8%
8	Postiz	Social Media	HK	\$177,102	+15.0%
9	PROSP	AI	FR	\$128,005	—
10	BIG	E-comm	CA	\$97,034	0.0%

Top performers share a market and a model

Looking across the top 30 highest-MRR, named startups in the dataset.

1 B2B, not B2C

15 of the top 30 sell to businesses — and B2B listings pull 2.6x the average MRR of B2C ones marketplace-wide.

2 Built in the US

17 of the top 30 are US-based, with the rest spread thinly across Canada, France and Asia.

3 AI × SaaS × Analytics

The most common market tags among top performers are SaaS, AI and Analytics — usually stacked together, not standalone.

4 Stripe as the rail

26 of the top 30 run billing on Stripe — the dominant, trusted default for verified recurring revenue.

Authority compounds into revenue

Domain rating is the single strongest signal in the dataset for where a startup lands on the leaderboard.

Median MRR by domain-rating band (log-scale relationship)

193x

higher median MRR for DR 61–100 startups vs. DR 0–20

16.5K

average X followers among the top 30 vs. a median of 79 marketplace-wide

Tiered

subscription pricing (not one-time or flat fees) dominates top performers' pricing pages

The blueprint for the next company

Fields to prioritize, based on what separates the top of the leaderboard from the rest.

AUDIENCE	Design for B2B	Sell to businesses first — B2B commands 2.6x the average MRR of B2C on this marketplace.
MARKET	Sit at the AI × SaaS × Analytics intersection	The category combination most represented among top-MRR startups.
GEOGRAPHY	Anchor in the US	57% of top-30 performers are US-based; treat other regions as expansion, not the base case.
PRICING	Launch tiered subscriptions	\$29–\$99/mo tiers are the norm among top performers — avoid one-time-only pricing.
BILLING	Verify revenue on Stripe	The default, most-trusted rail on TrustMRR — 86% of top-30 performers use it.
AUTHORITY	Invest early in SEO & domain rating	DR is the strongest single predictor of MRR in the dataset — build content and backlinks from day one.

● SUMMARY

Verified revenue rewards focus

Across 1,000 listed startups, the winners on TrustMRR aren't the most numerous category — they are a small, concentrated group of B2B, US-anchored, AI/SaaS/Analytics businesses running tiered subscriptions on Stripe, with real domain authority behind them.

- 48% of all MRR sits with the top 10 startups — outliers define the market, not the median.
- Domain rating tracks MRR almost linearly — authority is the strongest lever available pre-revenue.
- B2B + tiered pricing + Stripe is the default stack for every top-30 performer.
- The clearest opening for a new company: AI × SaaS × Analytics, sold to US businesses.
