

★★★★★ Loved by 10,000+ B2B teams

One Platform. Countless B2B Connections.

The AI-powered link infrastructure to unify your business workflows, client onboarding, and data routing.

600 × 400

The Solution: **Active Routing**

Transforming Passive URLs

Liinks transforms passive URLs into an active, AI-driven routing engine. It acts as a centralized hub that adapts to the user in real-time.

Whether it's a client, vendor, or internal team member, Liinks serves the most relevant enterprise assets instantly, maintaining your brand's pristine visual identity.

A large, light gray rectangular box with rounded corners, serving as a placeholder for a 600 x 400 image.

600 × 400

The Market Opportunity: **B2B Dominance**

600 × 400

Our data shows that B2B audiences generate significantly higher and more stable recurring revenue compared to B2C, making it the strategic focus for scaling.

The Engine: **AI Leads the Market**

600 × 400

AI is the absolute strongest revenue driver in the portfolio. The intersection of B2B utility and AI capability is our clearest path to maximizing ARPU.

The Bottleneck: **Identifying Churn Risk**

600 × 400

Legacy static link tools lead to blind spots. We need immediate, AI-driven intervention on high-value B2B accounts slipping below the zero-growth line.

Start building your B2B hub.

Seeking strategic partners for our Enterprise AI Tier rollout.
