Executive Decision Overview

DECISION SUPPORT

Primary Recommendation: Acquire PROSP (AI Category) at \$1.0M Asking Price (0.8x ARR Multiple)

RECOMMENDED TARGET #1

Overall Score: 89 / 100

PROSP (B2B AI Platform)

Generates **\$98,483 monthly revenue** with **\$128,005 MRR** across 1,108 active subscribers. Listed at **\$1,000,000 asking price** (0.8x ARR multiple), presenting an immediate valuation discount for high-margin recurring cash flow.

SECONDARY TARGETS

1Lookup (B2B SaaS)
\$391k Rev, \$207k MRR, \$10M Ask (2.1x ARR). Platform anchor target.

Backlinker AI (Marketing)
\$22k Rev, +577% growth, \$350k Ask (1.3x ARR). High velocity engine.

Full pipeline: 6 shortlisted targets

 **Core Thesis:** Prioritize B2B AI and SaaS platforms with proven MRR scale (\$20k–\$128k/mo) trading under 2.5x ARR. Exclude speculative micro-revenue outliers that exhibit false high-percentage growth spikes.

SCORING FRAMEWORK

▼ Data Hygiene & Rules

- **Primary Master Sheet:** Analyzed 'Data' tab (1,000 records). Excluded duplicate 'Sheet3' to prevent double-counting.
- **Stealth Exclusion:** Removed 129 stealth/unnamed records from recommendation to ensure actionable seller outreach.
- **Outlier Control:** Penalized extreme percentage spikes driven by micro-bases (e.g., RonFax +4,254% MoM on \$87 revenue).
- **Metric Normalization:** Annualized monthly revenue ($\text{ARR} = \text{Revenue} \times 12$) to validate seller asking multiples.

↗ Genuine Scaled Growth Leaders

INVESTABLE

COMPANY	30D REV	30D GROWTH	MRR SIGNAL
Backlinker AI	\$21,931	+577.3%	\$26,950
SetSmart	\$50,485	+29.0%	\$15,659
Lancer.app	\$24,464	+33.2%	\$17,926

Growth backed by significant dollar volume expansion (\$15k-\$50k monthly revenue) and verified subscriber counts.

⚠ Low-Base Growth Outliers

FLAGGED & PENALIZED

COMPANY	30D REV	RAW GROWTH	ACTUAL DOLLAR INCREASE
RonFax	\$87	+4,254.0%	+\$85 / mo
CalBudget	\$1,200	+1,947.0%	+\$1,140 / mo
NewsMag	\$165	+1,003.3%	+\$150 / mo

Massive percentage growth driven by near-zero prior period bases. Automatically penalized in scoring model.

UNIT ECONOMICS

Evaluating Subscriber Density, ARPU Signals, and Payment Provider Integration Quality

COMPANY NAME	CATEGORY	ACTIVE SUBS	30D REVENUE	MONTHLY MRR	IMPLIED ARPU	PAYMENT INTEGRATION
PROSP	AI Tools	1,108	\$98,483	\$128,005	\$115.53/mo	Stripe API Key
lLookup	B2B SaaS	655	\$391,321	\$207,064	\$316.12/mo	Stripe API Key
TrackAI	Mobile Apps	5,037	\$25,428	\$20,926	\$4.15/mo	Stripe API Key
SetSmart	SaaS	139	\$50,485	\$15,659	\$112.65/mo	Stripe API Key
GoTall	Health & Fit	16,464	\$51,353	\$58,510	\$3.55/mo	Stripe API Key

B2B High-ARPU Enterprise Signal

PROSP and lLookup capture high per-user monthly rates (\$115-\$316/sub), indicating deep integration into corporate business workflows and lower churn sensitivity.

B2C Volume Subscription Signal

TrackAI and GoTall operate high-volume consumer models (5k-16k paying subs) at low ARPU (\$3.50-\$4.15/mo), requiring continuous ad spend to replace consumer churn.

Risks & Priority Diligence Checklist

4-Pillar Audit Matrix to Bridge Information Gaps Prior to Binding Offers

RISK CONTROL

1. Financial & Stripe API Audit

- Connect direct read-only Stripe API to verify 12-month net transaction volume.
- Audit chargebacks, refund rates, and disputed payment volume.

2. Retention & Cohort Churn

- Evaluate logo churn and net revenue retention (NRR) across 30, 60, and 90-day cohorts.
- Check customer concentration (ensure top 5 clients generate <20% of MRR).

3. Codebase & API Dependency

- Review third-party API dependencies (OpenAI, Claude, cloud hosting costs).
- Audit IP assignment agreements and codebase security vulnerabilities.

4. Operational & Founder Transition

- Determine founder time commitment and transition requirements post-sale.
- Verify domain ownership and customer support ticketing workloads.

Final Decision Framework & Next Actions

Immediate Execution Roadmap for Corporate M&A Allocation

EXECUTION PLAN

PHASE 1 (IMMEDIATE)

Issue Non-Binding LOI
Submit non-binding LOI for **PROSP** at \$850,000–\$950,000 valuation (0.7x–0.8x ARR). Request immediate read-only Stripe API access.

PHASE 2 (PARALLEL)

Secondary Outreach
Open preliminary discovery with sellers of **SetSmart** (\$499k ask) and **Backlinker AI** (\$350k ask) for add-on buyouts.

PHASE 3 (MONITOR)

Platform Negotiations
Place **1Lookup** on monitoring list. Condition any \$10M platform offer on multi-quarter net retention proof.

Executive Recommendation: Authorize M&A team to execute Phase 1 immediately. Capital requirement for primary target (PROSP) is under \$1.0M for \$128,005 in verified monthly recurring revenue.
