

SaaS Performance Analysis

Deep Dive into TrustMRR Dataset of 1,000 Startups

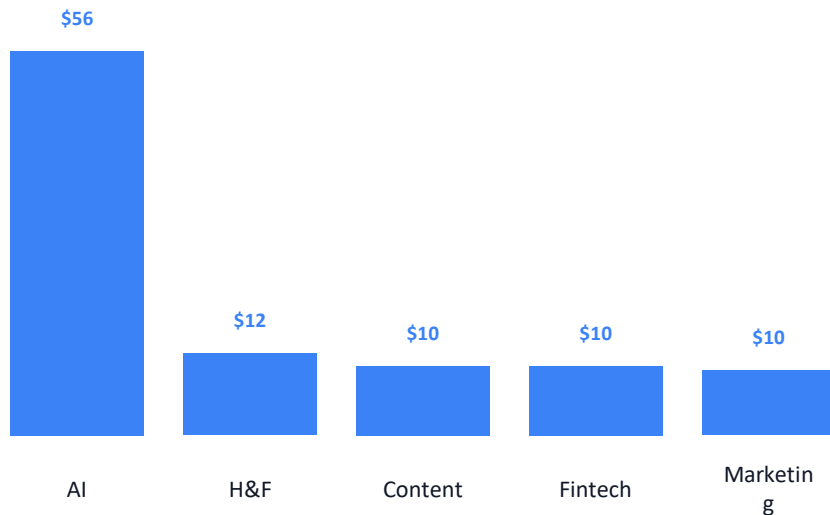

About This Dataset

TrustMRR Database - Real SaaS Startup Metrics

Total Startups Analyzed	1,000
Countries Covered	65
Product Categories	29
Average Monthly Revenue (MRR)	\$13,472
Average Monthly Visitors	183,676
Average Active Subscriptions	501

Which Categories Generate Highest Revenue Per Visitor?

Top 5 Categories by Revenue Per Visitor

KEY FINDING:

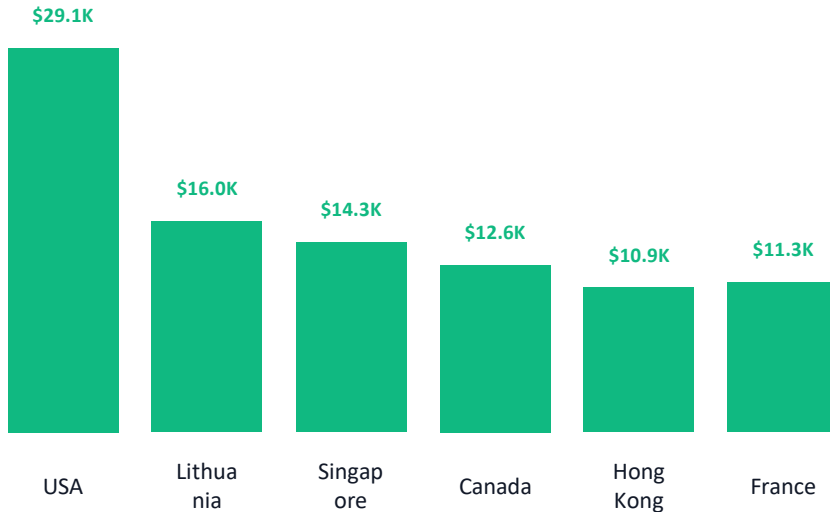

AI category dominates with \$56.34 per visitor - 4.7x higher than Health & Fitness.

Why? AI tools solve critical problems with premium pricing models.

Action: If building B2B SaaS, consider AI positioning for better margins.

Which Countries Generate Highest Average MRR?

Top 6 Countries by Average Monthly Revenue

KEY FINDING:

USA dominates: \$29K average MRR (258 startups).

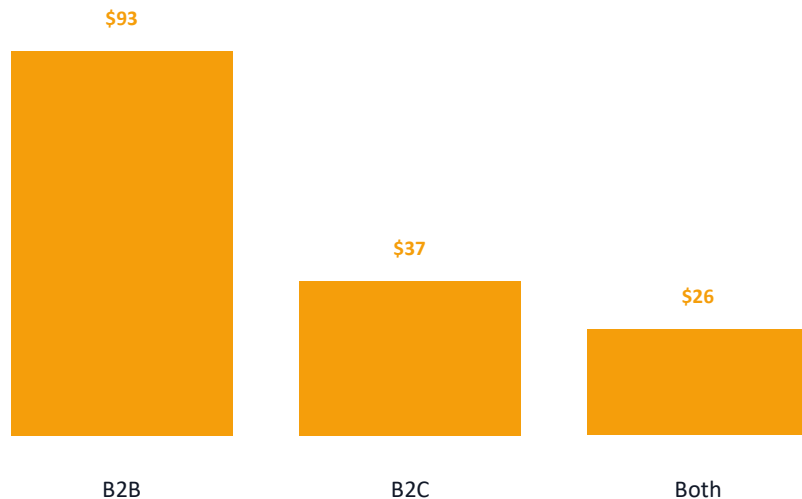

Lithuania (\$15.9K) and Singapore (\$14.3K) show strong emerging markets.

Canada stable at \$12.6K with 29 startups.

Action: USA = most mature market with highest revenue.

Which Audience Type Reaches Revenue Fastest?

Revenue Growth Rate by Target Audience

KEY FINDING:

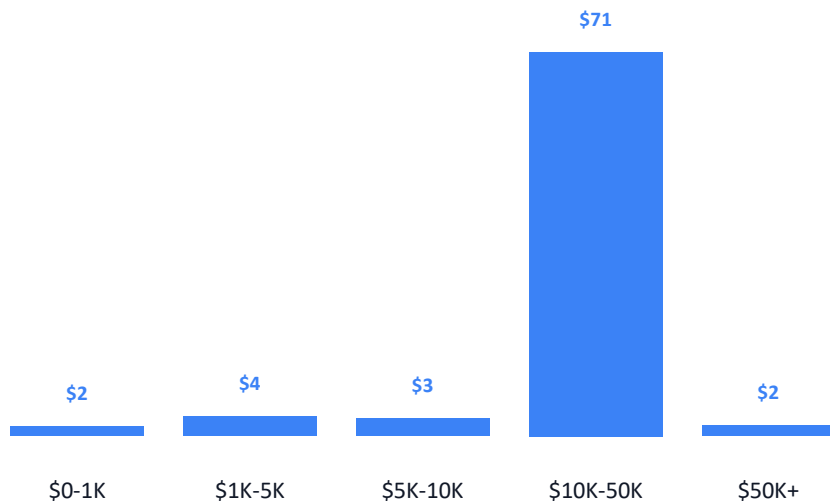

B2B grows 93% faster than B2C (2.5x faster).

Why? B2B customers have clearer pain points & higher lifetime value.

Action: B2B = faster revenue cycle. B2C needs more users for same MRR.

What Revenue Levels Show Best Scaling Efficiency?

Revenue Per Visitor by Revenue Stage

KEY FINDING:

"\$10K-50K" band shows \$70.74 revenue/visitor - sweet spot!

This is enterprise/B2B products reaching scale.

Action: Most successful scaling happens in \$10K-50K MRR range.

Which Payment Providers Drive More Revenue?

Average Revenue by Payment Provider

KEY FINDING:

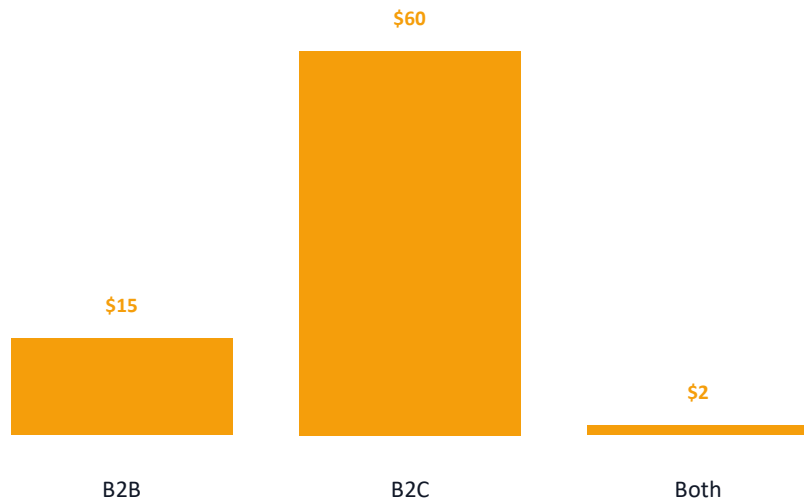

Multi-provider (Stripe + Superwall) = 75% more revenue than Stripe alone.

Different providers enable different monetization models.

Action: Combine providers for max revenue - don't rely on one.

Which Audience Converts Visitors to Subscribers Best?

Visitor-to-Subscriber Conversion Rate (%)

KEY FINDING:

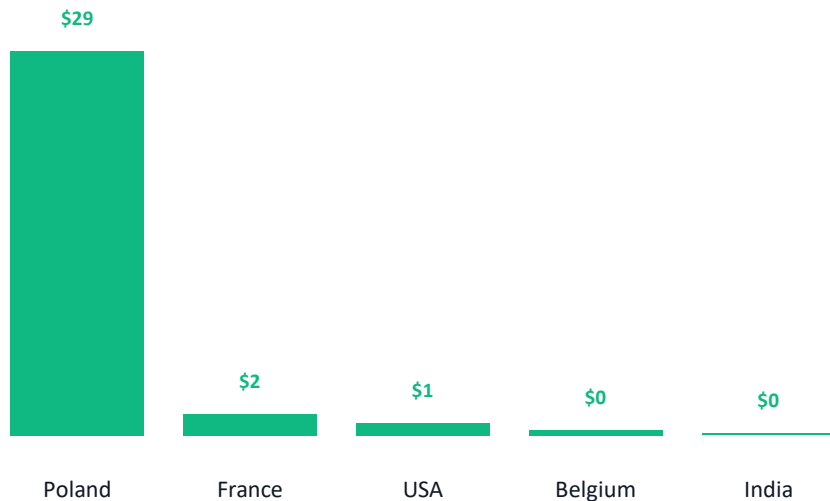

B2C converts 60% (very high!). B2B converts 15% (lower volume, higher value).

"Both" shows 1.5% - unclear messaging kills conversion.

Action: Pick ONE audience & optimize messaging for them.

Which Regions Have Untapped Growth Potential?

Total Monthly Visitors by Country (Top 5)

KEY FINDING:

Poland: high visitors, low monetization.

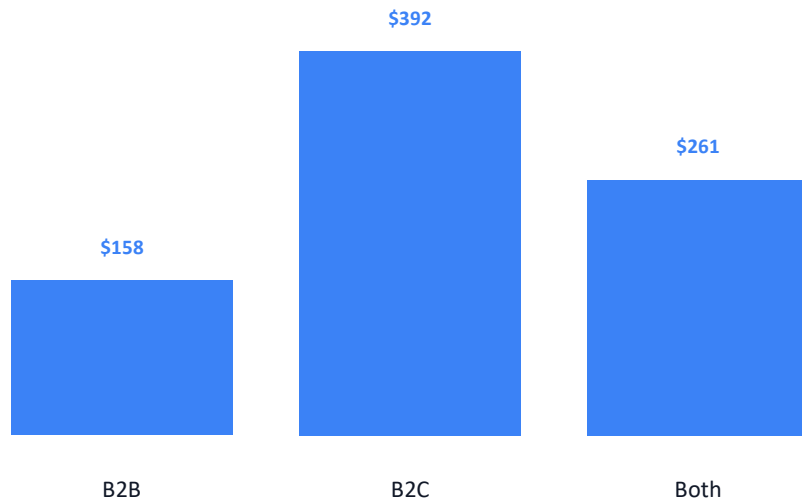

USA: 932K visitors + \$37.78 RPV = best combo.

India: 154K visitors, huge growth potential.

Action: USA for revenue, India/Poland for volume.

How Engaged Is Each Audience Type?

Average Active Subscriptions

KEY FINDING:

B2C has 2.5x more subscribers than B2B.

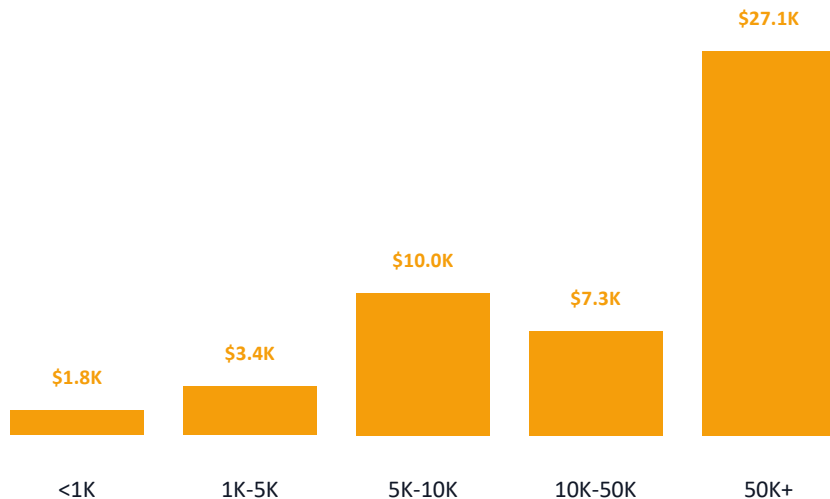

B2B: 158 subs + \$12/visitor = high-value, lower volume.

B2C: 392 subs + \$26/visitor = volume + monetization.

Action: B2B needs retention focus; B2C needs acquisition scale.

When Do Startups Hit Revenue Traction?

Revenue When Visitor Milestones Are Hit

KEY FINDING:

Revenue jumps 3x at 5K-10K visitor range.

At 50K+ visitors, revenue = \$27K (proof scaling works).

Benchmark: Target 5K-10K visitors/month = \$10K MRR.

Action: 1K → 5K → 50K = growth stages.

Key Takeaways from TrustMRR Data

1. Category Matters: AI = 4.7x higher RPV than average
2. B2B > B2C: 2.5x faster growth, better unit economics
3. Geography: USA leads with \$29K average MRR
4. Multi-Provider Works: +75% revenue vs single provider
5. Conversion: B2C = 60%, B2B = 15%, "Both" = 1.5% (pick one!)
6. Monetization Gap: High traffic regions under-monetized
7. Time to Scale: 5K-10K visitors = \$10K MRR benchmark
8. B2B: Fewer customers, high value | B2C: Volume game
9. Best Market: USA = \$29K MRR with 258 startups

Conclusions & Recommendations

For Founders:

- Target B2B or AI - both show superior growth
- Focus USA/Canada for revenue; India/Poland for scale
- Get to 5K monthly visitors before advanced optimizations
- Use Stripe + Superwall combo (75% more revenue)

For Investors:

- B2B startups show 93% growth - target these
- Watch for 5K-10K visitor milestone = \$10K MRR signal
- Category > Geography (AI > all other categories)
- Track conversion rate > followers (PMF indicator)

Thank You
