Execution Steps

1

Stripe Financial Audit

Verify recurring revenue authenticity and payment history.

2

Churn Rate Evaluation

Assess subscriber retention and cancellation trends.

3

Technical Codebase Review

Confirm scalability, maintainability, and technical debt.

4

Finalize Purchase Agreements

Close terms and complete transfer of ownership.

Investment Thesis Summary

Concentrated Value

Revenue leadership is concentrated in a small set of top-percentile assets, led by 1Lookup at \$3.12M ARR.

Growth Outliers Exist

Backlinker AI's +577% 30-day growth signals a rare expansion opportunity worth a premium multiple.

Efficiency Matters

SetSmart, Plutio, and Post Bridge demonstrate that visitor traffic must convert to revenue to create real value.

Balanced Allocation

A 70/30 split between stable cash-flow assets and high-growth targets balances risk and upside.
