# REVENUE INSIGHTS REPORT

A Performance Analysis of 1,000 Companies Across 30-Day, 3-Month, 12-Month, and All-Time Revenue Cycles.

|                               |                                     |                              |
|-------------------------------|-------------------------------------|------------------------------|
| Dataset Size: 1,000 Companies | Analysis Scope: Multi-Cycle Revenue | Status: Frozen July 30, 2026 |
|-------------------------------|-------------------------------------|------------------------------|

# MARKET SCALE REACHES \$334M WITH HIGH REVENUE CONCENTRATION

**\$334M**

ALL-TIME REVENUE

**\$133.8M**

12-MONTH REVENUE

**\$15.6M**

30-DAY MOMENTUM

**61%**

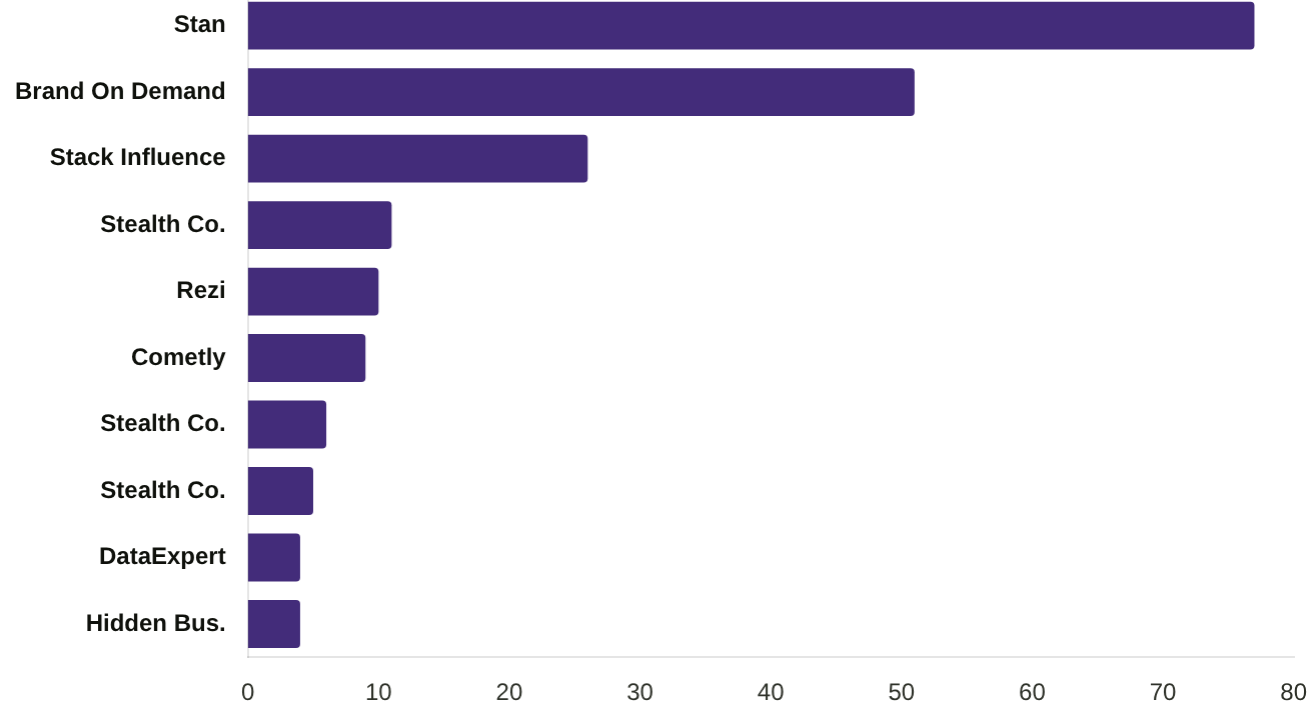

TOP 1% SHARE

## THE POWER-LAW REALITY

A steep power-law curve exists where the top 1% of companies account for 61% of all-time revenue. In stark contrast, the median company has generated only about **\$3,600** all-time, highlighting a definitive "winner-takes-most" market dynamic.

# REVENUE CONCENTRATION IS DOMINATED BY BREAKOUT LEADERS

TOP 10 COMPANIES BY ALL-TIME REVENUE (\$M)

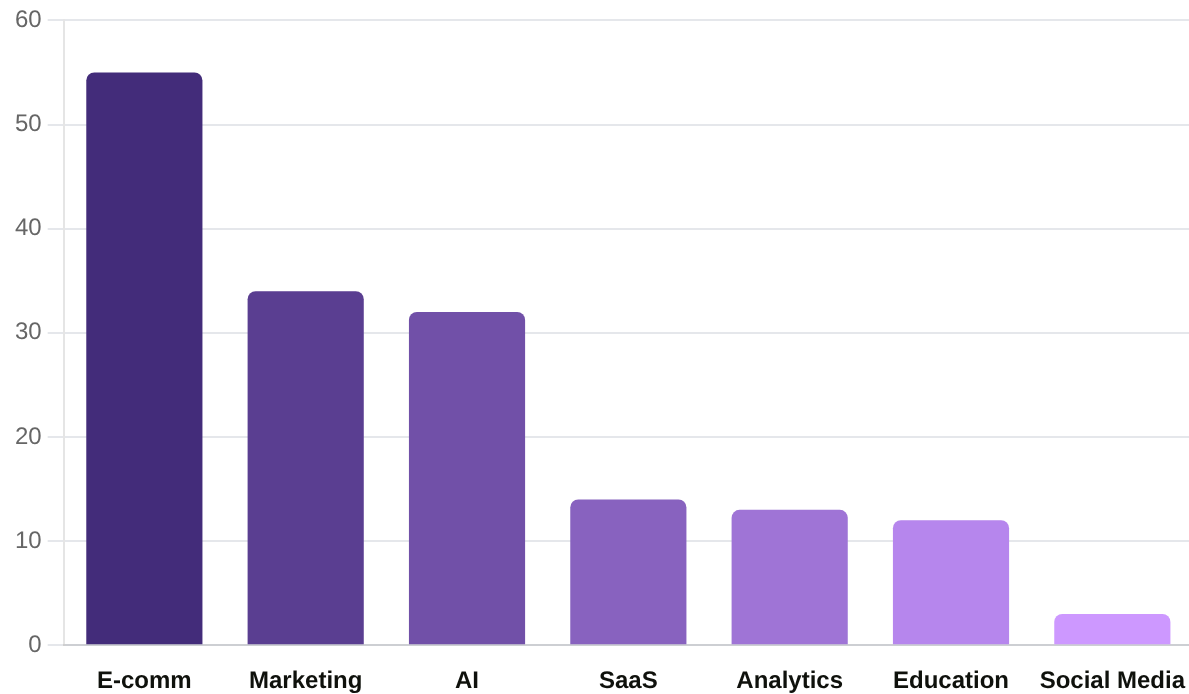

## COMPETITIVE LANDSCAPE

- **Stan's Dominance:** Leading with \$76.6M all-time, 3x the #2 company.
- **The Top Tier Gap:** Revenue difference between #1 and #10 is over 17x.
- **Top 3 Power:** Stan, Brand On Demand, and Stack Influence add \$154M.
- **Stealth Performance:** Anonymized "Stealth Companies" occupy mid-table slots.

# E-COMMERCE AND AI SECTORS DRIVE MARKET GROWTH

ALL-TIME REVENUE BY CATEGORY (\$M)

**70%**

## US MARKET DOMINANCE

US-based companies drive \$235M of the \$334M total all-time revenue.

**64%**

## STRIPE INFRASTRUCTURE

Stripe remains the dominant payment rail for the majority of the dataset.

# 30-DAY REVENUE AS A RELIABLE SCALE PREDICTOR

| COMPANY         | 30-DAY REVENUE | ALL-TIME REVENUE | MRR         |
|-----------------|----------------|------------------|-------------|
| Stan            | \$2,844,652    | \$76,627,685     | \$3,569,654 |
| Brand On Demand | \$984,522      | \$51,152,595     | \$187,459   |
| Stack Influence | \$868,322      | \$26,284,476     | \$25,703    |
| Stealth Company | \$365,047      | \$11,337,749     | \$364,101   |
| Rezi            | \$242,368      | \$9,726,513      | \$259,701   |

## PREDICTIVE CORRELATION ANALYSIS

Analysis confirms that **30-day revenue** is a high-confidence indicator of both all-time scale ( **$r=0.92$** ) and Monthly Recurring Revenue ( **$r=0.87$** ). While growth rates remain volatile, absolute revenue metrics provide the most stable view of long-term market potential.
