

TRUSTMRR PORTFOLIO REVIEW

Executive Summary

Revenue, MRR, Category & Domain Highlights

Data frozen 30 Jul 2026

Top 5 Startups For Sale

By All-Time Revenue

By Monthly Recurring Revenue (MRR)

Deal Reference — Revenue-Ranked Candidates

Startup	Category	Asking Price	Revenue Multiple
1Lookup	SaaS	\$10,000,000	2.1x
Stealth Co. (Unnamed)	—	\$2,150,000	4.3x
Plutio (Super Work AI)	Productivity	\$1,300,000	4.9x
Lunchbreak	Education	\$1,500,000	4.0x
Eloking	E-comm	\$300,000	4.9x

Source: TrustMRR dataset, on_sale = TRUE. Left panel ranked by revenue_all_time_usd; right panel ranked by mrr_usd — lists differ because the two metrics rank companies differently.

Top 5 Startups Not For Sale

By All-Time Revenue

By Monthly Recurring Revenue (MRR)

Why watch these: Stan and Brand On Demand together generate ~\$127.8M in lifetime revenue — more than the next 8 highest not-for-sale startups combined — with Stan alone carrying a \$3.57M MRR base. None currently carry an asking price, so any future divestiture would be a priority-tier deal.

Source: TrustMRR dataset, on_sale = FALSE. Left panel ranked by revenue_all_time_usd; right panel ranked by mrr_usd.

Top 5 Startups — Revenue Trend & Engagement

Revenue Trajectory by Reporting Window

Active Subscriptions

Data gap flagged: visitors_30d is not populated for any of these 5 top-revenue startups in the source dataset (only 178/1,000 records report traffic). Active subscriptions is used as the available engagement proxy — Stan's ~101.6K subscriptions dwarf the rest of the cohort, while Stack Influence converts high revenue from very few (55) accounts.

Source: TrustMRR dataset. Top 5 by revenue_all_time_usd. Note: Stan's 3-month revenue figure (\$0) as reported in source data — likely a reporting/billing-window artifact, retained as-is.

Top 5 Categories

By Total All-Time Revenue

By Total MRR

Read: E-comm leads on lifetime revenue but AI leads decisively on recurring revenue (\$1.81M MRR vs \$0.40M) despite lower total historical revenue — across roughly 3x more companies (197 AI startups vs 19 E-comm), suggesting AI's revenue is more distributed and more subscription-driven.

Source: TrustMRR dataset, summed by category (274 records missing a category label are excluded).

Top 5 Domains

By Revenue (All-Time)

By MRR

By Visitors (30d)

Source: TrustMRR dataset, 1 record per domain (999/1,000 rows map 1:1 to a unique domain). Note: the highest-traffic domains are not the highest-revenue domains — no overlap between the two rankings.

RECOMMENDATION

Best Buy: PROSP (AI Category)

\$128K

REVENUE MULTIPLE

1,108

ACTIVE SUBSCRIBERS

- **Category leader in recurring revenue** — AI is the single largest MRR-generating category in the portfolio (\$1.81M total, Slide 5) — PROSP sits inside the sector with the strongest subscription momentum.
- **MRR is 188x the AI category median** — \$128,005 MRR vs. a \$682 median across 54 for-sale AI startups — a clear outlier on scale within its own category.
- **Priced well below category norms** — 0.8x revenue multiple vs. a 3.15x median for AI listings — among the cheapest ways to buy meaningful AI recurring revenue in this dataset.
- **Diversified, low-risk customer base** — 1,108 active subscriptions spread the revenue out — unlike single-client-risk patterns seen elsewhere in the portfolio (e.g. Stack Influence: \$26M revenue from just 55 accounts).
- **Young and still growing** — All \$507,250 of lifetime revenue was generated in the trailing 12 months, with revenue still growing +4.3% month-over-month — this is early-stage momentum, not a legacy asset in decline.

AT A GLANCE

	PROSP	AI Median
MRR	\$128.0K	\$0.7K
Revenue	\$507.3K	\$9.2K
Multiple	0.8x	3.15x
Subscribers	1,108	—

Runner-up: 1Lookup (SaaS)

Highest absolute MRR for sale (\$207K) but revenue and MRR are both declining (–5.8% / –7.5% MoM) at a 10x higher asking price (\$10M).

Source: TrustMRR dataset, on_sale = TRUE. "AI Median" reflects the 54 for-sale AI-category listings. Revenue multiple as reported in source data.
